

"Introduction to Maker Education"

**A FREE Teacher Workshop
For Grades 3-12**

The "Maker Movement" is sweeping across the country and is the cutting-edge way to engage your students in hands-on, real-world problem-solving while applying their working knowledge of STEM skills.

Join us for a three-hour introductory workshop on Maker Education and the Maker Movement! Learn to incorporate "Maker Education" into your STEM curriculum and how to advance your Service-Learning and Project Based Learning experiences and simple ways to turn your students into "makers". Attendees will be introduced to the "maker space" concept, see a working "maker space" and learn how to develop their own space for their students on a budget!

Two workshop dates are available for you to choose from.
Each workshop is limited to the first 20 educators who register.

Educators must bring a laptop to the workshop.

For questions, please contact Samantha Murray, MEEC Program Specialist at: 760-245-1661 ext. 6717 or smurray@mdaqmd.ca.gov
