

CalPortland Company Presents.....

“CEMENT IS NOT CONCRETE!”

A K-12 Teacher Workshop presented by Women In Mining

Join us for an evening of hands-on learning at CalPortland Company's Oro Grande Cement Plant! Come and learn the difference between cement and concrete during this two-hour workshop that will demonstrate how to engage your students in the geology of mining! Teachers will receive a FREE curricula guide with tables listing specific minerals and rocks, their characteristics, plus lesson plans, glossaries, and a historical timeline of Portland Cement!

As an added bonus, participants will **tour the CalPortland Oro Grande Cement Plant** with plant engineers to see how cement is made and learn how they do it while continuing to be an industry leader in energy conservation and environmental innovation!

WHEN: Thursday, March 9, 2017

RSVP by March 3

TIME: 4:00 PM—7:00 PM

Registration 3:30-3:45, tour leaves promptly at 4PM

WHERE: CALPORTLAND COMPANY—ORO GRANDE CEMENT PLANT

19409 National Trails Highway, Oro Grande, CA 92368
