

Environmental Science Fair Project Topics

An Environmental Science Fair Project focuses on how the combined actions of human beings impact the environment, and raises awareness of that impact. It also explores solutions and/or actions that can be undertaken to lessen the detrimental impacts on the environment.

Some Environmental Science Project topics include:

- Acid Rain
- Air Pollution
- Alternate Fuels & Vehicles
- Biodiversity
- Biomes
- Composting
- Desert Landscaping
- Endangered Species
- Energy Conservation
- Erosion
- Global Warming
- Green Buildings & Architecture
- Habitat Restoration/Revegetation
- Hazardous/Toxic Wastes
- Landfills/Illegal Dumping
- Minerals & Mining
- Oil Spills
- Overpopulation
- Pollution Prevention
- Recycling
- Renewable Energy
- Soil
- Stormwater
- Wastewater Treatment & Recycling
- Water Conservation
- Water Pollution/Quality

These are just a few examples of environmental science fair project ideas.
